Cape Fear Center For Inquiry

Dear CFCI Community,

The Building and Facilities Committee would like to update the CFCI community on the progress of our work this year. We are going to hold an informational meeting about a proposed project on June 11th from 6:00pm-7:00pm. If you are interested and would like more information about our new building project or have questions, please join us.

In addition to describing the project, we will also speak about the alternatives we have reviewed and why we abandoned plans to build on our Blue Clay site - The property that CFCI owns which had not been deemed appropriate to build a facility and which will not meet the needs of our students. (The property is currently up for sale).

CFCI has entered a contract to purchase property for a new building. The property is in the block of 17th Street, Shipyard, Carolina Beach Road, and Wellington. The lot is neighboring the Willie Stargell Office Park. The property is 5+ acres and is heavily wooded. We are about to start the process of due diligence in order to gather the appropriate information on the site. This information will lead us to a definitive decision on purchasing the land. We are considering preliminary plans that call for a approximately 36,000 square foot classroom building and a 5,000 square foot gym/music building. (This compares to a total of 23,000 square feet in our current bldg) The Building and Facilities Committee will be going to cover a lot of ground and we encourage you to join us for this informative meeting.

Sincerely,

CFCI Building and Facilities Committee
